

- Administration of **Github** tool which includes creating **branches**, **tagging**.
- Maintaining Subversion code repository and **backup files**.
- Working experience with **JIRA** for Preparing documentation plan, estimating work, and assigning work to the team. Coordinating and tracking all projects for seamless releases using Project Management System
- Experience in Creating **branches and tags** to separate build system after a milestone releases and Create build storage archives for back tracking builds.
- Used Jenkins, Build forge for Continuous Integration and Continuous Delivery (CICD) into Tomcat Application Server.
- Automated build scripts using **Maven** and **Shell Scripts**.
- Configured **Jenkins** CI tool for project and setup Nightly Builds.
- Installation, Configuration and Administration of **Jenkins** over UNIX and LINUX build machines in distributed mode over **Apache Tomcat** and configured jobs along with various plug-in for Continuous Integration, Release Builds.
- Set up the local development environments through **Docker** containers for new developers.
- Developing build and deployment pipelines using **Jenkins, Maven** for Java applications.
- Developed a fully automated continuous integration system using **Git, Jenkins** and custom tools developed in Bash.
- Administered version control system that included branching and merging Responsible for creating and developing the build process environment.
- Installing, configuring and administering **Jenkins** CI tool on Linux machines.
- Well-versed with Amazon Web Services (AWS) provisioning and good knowledge of AWS services like **EC2, Elastic Load-balancers, ALB, S3, EBS, RDS, VPC, Route53, CloudWatch, and IAM**.
- Launching Amazon **EC2** Cloud Instances using Amazon Web Services (Linux/Ubuntu) and Configuring launched instances with respect to specific applications.
- Created alarms and notifications for **EC2** instances using **Cloud Watch**. Installed and configured **Nagios** monitor tool performance on all nodes.
- Set up and maintained **Development, QA, and Production** environments.

DECLARATION

I hereby declare that all the details mentioned above are true to the best of my knowledge.
